
How to watch BBC iplayer when not in the UK?

Posted by joe67 - 2008/11/18 14:36

Does anybody know how I can watch the BBC iPlayer if I don't live in the UK. I really miss some TV programmes. The TV in Sweden isn't half as good. I can't watch it because I don't live in the UK. Any ideas?

Couldn't you just go through something like TOR until you came to right ip block for a country? Don't know - there might be another way. Here's the link to TOR

<http://www.torproject.org/>
